

# Technology & Maintenance Council CARB COMPLIANCE WORKSHOP

## Do you know how California's new CARB emission and retrofit laws will effect your trucking operation?

If you don't, this "CARB Compliance Workshop" is a must attend event for all Southern Oregon Trucking Companies

### Things You Need to Know

- ▶ Which vehicles must comply
- ▶ Who must comply
- ▶ When you must comply
- ▶ Truck & Bus compliance options
- ▶ Special vehicle provisions
- ▶ Vehicle replacement requirements
- ▶ Vehicle retrofitting requirements
- ▶ Provisions for Log trucks
- ▶ Aerodynamic & tire requirements

### Special Features

Find out how the "Green House Gas" and the "Truck and Bus" laws will effect your operation.

Learn how to use the "Truck & Bus Fleet Calculator" to determine which CARB compliance options are available to help you.

See a Bettendorf Trucking DPF retrofit tractor and a Gordon Trucking aero retrofitted trailer.
