TRUCKPAC

AT A GLANCE

The Oregon TruckPAC allows OTA to educate elected officials and promote policies beneficial to the trucking industry with the goal of influencing the outcome of legislation, regulations, and rules. The Oregon TruckPAC is also used to support candidates who understand the issues facing the trucking industry.

TruckPAC is made possible through the generous contributions of our members and supporters.

CHALLENGES

The trucking industry faces well-funded opposition from a variety of special interest groups that can drive policy discussions that would be harmful to the trucking industry. Their strong grassroots efforts combined with deep pockets could alter how the trucking industry operates in Oregon.

SOLUTIONS

TruckPAC provides the resources needed to even the playing field, allowing OTA to build awareness and develop relationships that can change outcomes for the better.
